

## Compact Swing-Away.

With its 13"x13" platens and compact frame, the Model 201 is the perfect small format machine for use in the home, craft and hobby industries. Its swing-away design makes the 201 an extremely user-friendly machine by providing completely unobstructed access to the lower platen. Loading garments and placing transfers is hassle-free.

### 1. Over the Center Pressure

The pressure source is strategically placed over the center of the upper platen and uses struts to drive that pressure out to all corners. The result is an even and heavy duty distribution of pressure that is unmatched by other heat presses in the market today.

### 2. Cast-In Tubular Heating Element

The tubular heating element is cast into the aluminum upper platen, heating the metal from within. The element is coiled throughout the upper platen to provide a reliable and even circulation of heat out to all corners.

### Specifications:

- Swing-away upper platen
- Pressure adjustment crank
- Integrated digital controller which features controls for time, temperature (Fahrenheit or Centigrade) & auto-off
- Protective heat shroud
- Warranty – Lifetime warranty on the upper heating element, 1 year on parts & 90 days on labor
- ETL, CE, WEEE & RoHS compliant

### Working Space:

- **Depth:** 23.5" (59.69 cm)
- **Width:** 20" (50.8 cm)
- **Height:** 15.25" (38.74 cm)
- **Power:** 120 volt - 1200 Watts, 10.0 Amps  
220 volt - 1800 Watts, 7.8 Amps
- **Platen Size:** 13"x13" standard (33.02 x 33.02 cm)
- **Shipping Weight:** 77 lbs. (34.93 kilos)
